Summary

Enthusiastic and highly motivated Java Developer with a strong foundation in core Java, Object-Oriented Programming (OOP), JDBC, Hibernate, and Spring Boot. Adept at front-end development with proficiency in HTML, CSS, and JavaScript, including experience with the React.js library. Certified in core Java, demonstrating a solid understanding of fundamental programming concepts.

Experience

Full Stack Java Developer Intern KodNest

Jun 2023 - Jan 2024

- Successfully completed certifications in Java Full Stack Development and gained proficiency in front-end technologies like HTML, CSS, JavaScript, and ReactJS.
 - Demonstrated strong analytical skills in programming and advanced concepts such as Hibernate and Spring Boot.
 - Possess comprehensive knowledge of back-end language Java and proficient in utilizing it for development purposes.
 - Proficient in handling databases, including MySQL and Oracle.
 - Joined Kodnest with the aim of upskilling my skills in Java Full Stack Development.
-

Education

Bachelor of Engineering - BE • BMS Institute of Technology Bengaluru (BMSIT)

Dec 2020 - May 2023

Grade: 7.9

Attained a solid engineering education at BMS Institute of Technology and Management, affiliated with Visvesvaraya Technological University (VTU). Engaged in rigorous coursework and applied hands-on learning to develop strong analytical and problem-solving skills. Utilized cutting-edge resources and collaborated with fellow students to tackle complex engineering challenges. Demonstrated a keen aptitude for critical thinking and a proactive approach towards finding innovative solutions.

Diploma • Shree Vidyadhiraj Polytechnic Kumta, Uttara Kannada

Jun 2017 - Sep 2020

Grade: 73%

- Achieved a solid grounding in diploma studies by completing a thorough curriculum at Shree Vidyadhiraj Polytechnic, affiliated with the Diploma Technical Education Board.

School • Marthoma English Medium School

May 2016 - May 2017

Grade: 89%

Projects

TuneHub (Music Streaming Service)

Dec 2023 - Jan 2024

- Developed TuneHub, an ultimate music streaming service, using **React**, Java (Spring Boot), and MySQL.
- Designed an engaging interface with React to enhance user experience.
- Implemented a feature-rich back-end using **Java (Spring Boot)** to provide various functionalities.
- Utilized **MySQL** to efficiently store user data and music collection.
- Enabled social sharing features, allowing users to easily share their favorite tunes, artists, and playlists.

Learn Sphere

Nov 2023 - Dec 2023

- Developed an innovative online learning platform, LearnSphere, to provide an engaging and interactive educational experience for learners of all ages.
 - Utilized Java for backend development and implemented **HTML**, **CSS**, and **Razorpay** for frontend and payment integration.
 - Revolutionized the way people access and engage with educational content through LearnSphere.
-

Skills

- Java core
- Object Oriented Programming (OOPS)
- Hibernate
- Spring Boot
- HTML5
- CSS.
- JavaScript
- React.js
- MySQL database
- Oracle Database
